DETAILED ACTION

Response to Amendment

1. The amendment filed on 9/22/2005 has been entered. The amendments to paragraphs 0033, 0050, 0077, and 0114 are acceptable and overcome the objections to those paragraphs set forth in the 4/22/2005 office action.
2. The amendment filed 9/22/2005 is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: The serial no. added to paragraphs 0037 and 0054 adds new matter to the specification because application 10/635,742 does not have the same filing date as this application, thus, it cannot be the application referred to by the title since the paragraphs referred to that application as simultaneously filed with this application. If applicant meant SN 10/671,953 then the issue of new matter will need to be considered since this may not be the only application that applicant has filed which has the same serial number filed on the same date as this application.

Applicant is required to cancel the new matter in the reply to this Office Action.

Response to Arguments

3. Applicant's arguments filed 9/28/2005 have been fully considered but they are not persuasive.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claims 27 and 28 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Paragraphs 43, 48, 64, 69, and 109 discuss that after the modifier arrow is drawn a text cursor appears which allows the user to type the type of chart the user wishes to display the data. These claims claim to draw the modifier arrow to a word that describes the type of graphic chart the data is to be displayed. Thus, that which is claimed and that which was disclosed is different and new claims 27 and 28 were not conveyed by that which was disclosed.

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

7. Claims 1, 2, 5-9, 14, 15, 18-22, 27, and 28 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims 1 and 14

Art Unit: 2672

were amended in such a way that the original broad step is repeated in the following add narrower step however, proper reference in the more narrower step to previously claimed element in the broader step. Applicant needs to rewrite lines 5-10 of claim 1 and lines 7-12 of claim 14 to more clearly and concretely claim the invention.

Allowable Subject Matter

8. Claims 3, 4, 10-13, 16, 17, and 23-26 are allowed. Claims 1, 2, 5-9, 14, 15, and 18-22 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action. The cursor arrow and symbol 480 do not teach or suggest drawing an arrow to select at least some of the graphic control devices and modifying the arrow to specify a type of graphic chart to be displayed.

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the

Art Unit: 2672

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
